Abstract: In this article we will put the work of all the members in the group about the final Project of the subject ST0245.

Team Work:

Date	Description
Week 1 : 8.04.2019-15.04.2019	In this week we begin to discuss about which data structure would be the best for this Project.
Week 2 : 16.04.2019-21.04.2019	In this week we begin to investigate how to start with the code
Week 3 : 22.04.2019-28.04.2019	In this week we started the code, the first part that we did was about how to read the file from the datasets.
Week 4 : 29.04.2019-6.05.2019	We begin with the final report and we were preparing for the second midterm

Week 5: 6.05.2019- 14.05.2019	We were doing the final report and doing the final corrections to our code for present the day Tuesday.
----------------------------------	---

This was all the work that we did respecting to the Project.
